

José Miguel Delgado Pérez

Software Developer | Front-End Developer

Morelos, Mexico (Full availability) · [linkedin.com/in/miguedpp](https://www.linkedin.com/in/miguedpp) · (+52) 777 152 7761 · josemiguedp0456@gmail.com

Passionate and adaptable software developer with hands-on experience in developing diverse applications. I enjoy learning new technologies and constantly look for ways to improve my skills. I thrive in collaborative environments, communicate effectively with both technical and non-technical teams, and value teamwork to deliver high-quality solutions.

PROFESSIONAL EXPERIENCE

Black Mamba Digital **Front-End Developer**

Morelos, Mexico
July 2025–Present

- Developed Front-End interfaces with React, Next.js and Astro, applying Clean Code principles and best development practices.
- Worked in conjunction with Back-End, UI/UX, QA and Product teams to ensure the quality and functionality of deliverables.
- Actively participated in the Scrum methodology, contributing to sprint planning, reviews and tracking.
- Maintained constant professional development through courses and learning new technologies and modern development tools.

Würth Mexico **Full-Stack Developer**

Morelos, Mexico
May 2023–July 2025

- Collaborated in cross-functional teams to plan and develop internal enterprise applications.
- Participated in frontend development with Angular and React, and backend development with .NET and PHP to optimize internal processes.
- Worked in close collaboration with stakeholders to align technical solutions with company objectives.

Ecommerce Crochet (University Project) **Product Owner & Front-End Developer**

Morelos, Mexico
August 2024–December 2024

- Led as Product Owner, managing requirements and team task prioritization.
- Collaborated in the development of user interfaces with React and TypeScript, ensuring a responsive experience.
- Actively participated in agile ceremonies alongside DevOps, Scrum Masters and developers.

SmartFit UTEZ (University Project) **Full-Stack Developer**

Morelos, Mexico
January 2023–April 2023

- Led a team to develop a gym management system (web and mobile).
- Participated in frontend development with React.js and backend with Spring Boot.
- Designed the database architecture and gathered real client requirements.

EDUCATION

UNIVERSIDAD TECNOLÓGICA DE EMILIANO ZAPATA
Engineering in Software Development and Management (Graduated)

Morelos, México
September 2023 - April 2025

UNIVERSIDAD TECNOLÓGICA DE EMILIANO ZAPATA
TSU in Information Technologies - Multiplatform Software Development

Morelos, México
September 2021 - August 2023

TECHNICAL KNOWLEDGE

- **Programming Languages:** JavaScript, TypeScript, Java, C#, PHP.
- **Frameworks:** Angular, React, Astro, Spring Boot, .NET, Express.
- **Libraries:** Tailwind CSS, Bootstrap, Material UI (MUI), Keep React.
- **Testing:** Jest, Vitest, Playwright.
- **Control de Versiones:** Git, GitHub, SourceTree, GitLab, Bitbucket.
- **Metodologías:** Agile, Scrum (Jira).
- **Databases:** MySQL, MongoDB, PostgreSQL.
- **AI applied to development:** use of LLMs, design of agents and sub-agents, tool integration (MCP), skills, task orchestration, development flow automation.
- **Concepts:** Clean Code, SOLID, Responsive Design, Componentization, Frontend Architecture, REST APIs, Basic UX/UI.
